

## Realistic Aerial Explosions with 6D Lighting Now Available!

I'm excited to announce that my new asset pack featuring **realistic aerial explosions** with **6D lighting** is **officially out** on the **Unity Asset Store**. I've put a lot of effort into this pack to ensure high quality and performance in Unity. As a special offer, **buyers of my first explosion pack** will receive a **discount** on this new release!

Take a look at the YouTube demo video to see the explosions in action:
